In case I don't accept one or more changes in the above mentioned documents, I will certainly unregister from APART, CROP NEWS ONLUS, and cancel my consent to handling my personal, sensitive and legal data by the above mentioned Associations, by the newly established CROP NEWS S.r.l. and by MEVALUATE HOLDING Ltd. [x] 7. "I consider myself as an integral part of the APART Association and the CROP NEWS ONLUS Association and not as a "third party", as I agree with their principles of transparency, merit, prevention and safety, and I state my partnership according to Article 18 of the Italian Constitution; therefore, no

For the above reasons, and especially referring to the provisions of the above mentioned Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016:

7.A. I state that the freedom of expression and information – like personal, sensitive and legal data processing for journalistic purposes, including profiling and the related reputation rating, requested and published by the online CROP NEWS (Objective Individual Reputation Reports) weekly magazine – overrides the protection offered by the above mentioned Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016.

7.B. I acknowledge that my registration to CROP NEWS ONLUS is the essential prerequisite for my optional enrolment to APART.

7.E. According to Article 25 of the Regulation EU 2016/679, I acknowledge and agree that the platform processing personal, sensitive and legal data according to the profiling and the related reputation rating, requested and published by the online CROP NEWS (Objective Individual Reputation Reports) weekly magazine – provides its services and its user interfaces through the secure HTTPS protocol certified by the GeoTrust certification authority (or other authority selected upon

expiration of the current certificate). All confidential information, including documents using a binary code, are stored into a MySQL database, encrypted with a complex algorithm ("PBESWithMD5AndDES") based on a secret password disclosed to the platform managing group only. The MySQL database can only be accessed by the app through an internal virtual network (VPN) and by authorized personnel after gaining access to the production VPN. [x] 7.F. I exempt the controller and the joint controllers processing my personal, sensitive and legal data from any "restriction of processing" according to Article 4, paragraph 3, of the above mentioned Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016.

[x] 7.H. [x] 7.I. I exempt the controller and the joint controllers processing my personal, sensitive and legal data from keeping records of the processing activities referred to in Article 30 of the above-mentioned Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016.

[x] 7.J. I exempt the controller and the joint controllers processing my personal, sensitive and legal data from the "data protection impact assessment" referred to in Article 35 of the above-mentioned Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016.

7.K. I exempt the controller and the joint controllers processing my personal, sensitive and legal data from the “prior consultation” referred to in Article 36 of the above-mentioned Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016.

7.L. 8. I don't consider myself as a “consumer” according to the Italian Legislative Decree 6 September 2005 No. 206, Official Gazette of the Republic of Italy of 8.10.2005 and integrative amendments (Consumer Code), in my relationships with:

1. CROP NEWS ONLUS, as I am an integral part of the Association according to Article 6 of the Statute;
2. APART, as I am an integral part of the Association according to Articles 4 and 5 of the Statute.”

9. “I don't deem the consumer protection provided by the Consumer Code compliant with the nature and aims of the association bonds I established with CROP NEWS ONLUS and APART.

10. I don't intend to act as a “consumer” in my relationships with CROP NEWS ONLUS and APART, but as a “professional” because I request those Associations to provide me with services which are instrumental in my present or future professional or commercial activities (as a self-employed entrepreneur) in the broadest sense.

Purposes of data processing.

Data processing is exclusively aimed at accomplishing the objectives and activities provided by the statutes of MEVALUATE HOLDING Ltd., APART, CROP NEWS ONLUS, and the newly established CROP NEWS S.r.l., namely:

1. the rating – including reputation rating – of APART’s Attending Members and Ordinary Members:

- RAMs (Reputation Audit Managers);
- RATERs (Reputation and Trust Expertise Representatives);

of all Members of CROP NEWS ONLUS, in order to ensure data security for worldwide users;

2. the dissemination – by means of all provided activities – and worldwide accessibility of CROP NEWS’ Digital Infrastructure of Reputation Rating through the online weekly magazine enrolled in the Publications Register of the Court of First Instance of Rome – Press Unit – No. 172/2017 of 26th October 2017. This magazine publishes documented reputation profiles subjected to “widespread public control”¹, granting a value to each user’s reputation, by turning a subjective

¹ **widespread public control:** any natural or legal person can create a reputation profile, but he/she can also use and control data entered by other users in the online CROP NEWS weekly magazine’s platform (proprietary reputation rating by MEVALUATE HOLDING Ltd.), which are therefore visible and freely accessible to the whole user community (except when the creator of the reputation profile decides to make it visible to one or specified authorized users only); any user can notify incorrect information on the CROP NEWS platform in a dedicated section of the platform itself. The following requirements ensure the reliability of the notifying user and the information he/she enters in the platform:

- the notifying user has already published his/her own documented and certified reputation profile according to a responsibility principle, which is a logic supplement to the principle of “widespread control”; the notifying user must first publish his/her own profile, according to the proposal of the Research and Development Group in cooperation with public and private users promoted by MEVALUATE HOLDING Ltd. and coordinated by PwC Advisory S.p.A. [joined by CCASGO (Italian Cooperation Committee for High Supervision of Major Works), comprising 10 Governmental Authorities, coordinated by the Ministry of the Interior [see 22 TV and press releases announcing CCASGO’s (coordinated by the MINISTRY OF INTERIOR) approval of MEVALUATE’s reputation rating]. The Final Report classified MEVALUATE’s reputation rating “aiming at creating tools for preventing crimes, money–laundering and corruption, the infiltration of organized crime in public tenders and in the economy in general, providing a valid competitive and commercial advantage deriving from the accrued safety and reliability of the activities MEVALUATE makes possible.”];
- the “right of reply” is granted to the notified user (whether member of the CROP NEWS ONLUS Association or not, as press freedom prevails over the right to privacy). Indeed, as soon as the information is entered, the CROP NEWS platform notifies the concerned user, who has 30 (thirty) days for replying in a documented manner. Before the end of that time period, the notification is only available to the “notifying user” and the “notified user” as a draft notice. The notification becomes visible to the whole CROP NEWS ONLUS user community only at the end of this “protection period” and once all information and documents entered by both

opinion into an objective and ratable fact. The new reputation rating service available to companies, organizations and individuals is aimed at ensuring lawfulness, quality, meritocracy, prevention and security, in order to improve reliability tests, simplify data handling, create clearer procedures for data assessment and control, enhance profiles for suppliers, business partners, aspiring employees, coworkers and clients;

3. administration services made possible by payment of optional contributions and endowments to APART (RAM or RATER Professional Communities), CROP NEWS ONLUS, and other payments to MEVALUATE HOLDING Ltd.
